

# Accessing MATLAB Online

To start using MATLAB Online, you will need your Activation Key and your MathWorks Account. If you do not have an account, you can create one during the setup process.

To access MATLAB Online, go to [matlab.mathworks.com](http://matlab.mathworks.com)

## 1. Log in

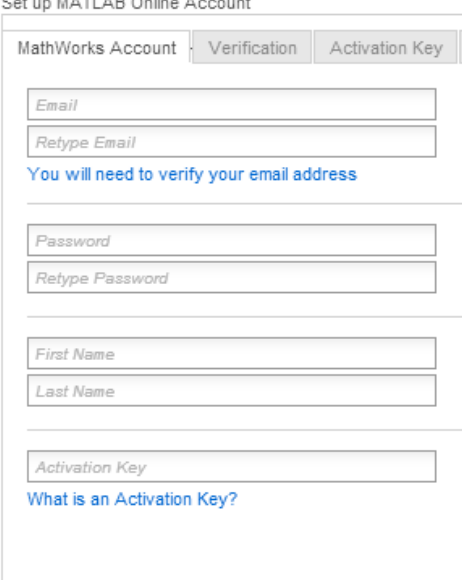

The login form features the MATLAB logo at the top. Below it, a heading reads "Log in using your MathWorks Account or [create an account](#)". There are two input fields: "MathWorks Account E-mail" and "Password". Below the password field are two links: "Forgot password?" and "Learn about MATLAB Online". A "Log In" button is located at the bottom right of the form.

You can log in to your MathWorks Account, or create an account.

## 2. Create MathWorks Account

If you need to create an account, enter your email address, your desired password, your first and last names and your activation key

The form is titled "Set up MATLAB Online Account" and has four tabs: "MathWorks Account", "Verification", "Activation Key", and "Terms of Access". The "MathWorks Account" tab is active. It contains several input fields: "Email", "Retype Email", "Password", "Retype Password", "First Name", "Last Name", and "Activation Key". Below the "Activation Key" field is a link that says "What is an Activation Key?".

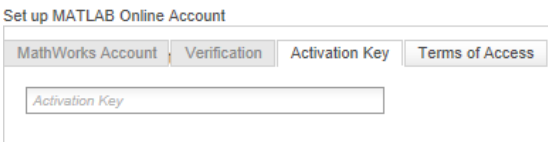

## 3. Verify email address

To use your MathWorks Account, you need to verify the email address you provided in the previous step.

Follow the instructions on your screen.

## 4. Enter activation key

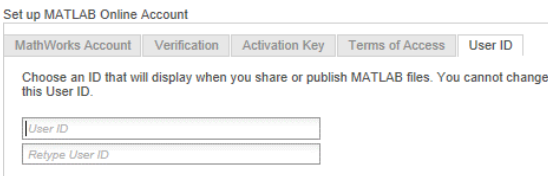

If you logged in to your existing account, enter your activation key when prompted.

The form is titled "Set up MATLAB Online Account" and has four tabs: "MathWorks Account", "Verification", "Activation Key", and "Terms of Access". The "Activation Key" tab is active. It contains a single input field labeled "Activation Key".

On the subsequent tab, read and accept the terms of access.

## 5. Create User ID

The form is titled "Set up MATLAB Online Account" and has five tabs: "MathWorks Account", "Verification", "Activation Key", "Terms of Access", and "User ID". The "User ID" tab is active. It contains a heading "Choose an ID that will display when you share or publish MATLAB files. You cannot change this User ID." Below this are two input fields: "User ID" and "Retype User ID".

Create a User ID to identify yourself when you share or publish files with MATLAB Online. You can also use this User ID for subsequent logins. You cannot change this User ID, so please choose carefully.

You are now set up to access MATLAB Online.
